

PRESS RELEASE

CPSA launches all-new CPD programme

A new CPD accredited programme has been launched by the Concrete Pipeline Systems Association. The material consists of an updated presentation “*Choosing the right pipeline system – now and for the future*” and an official text book accompanying the presentation highlighting the many advantages of concrete and covering pipeline design, costs, installation, quality and sustainability.

The presentation is ideal for engineers, contractors, specifiers and other industry professionals and can be offered as a free lunchtime seminar at a local office or suitable location. CPD certificates are available to all attendees.

The booklet “*20 Reasons why concrete pipeline systems are the best option – now and for the future*” explains in detail why concrete pipeline systems are the most suitable choice in the short and long term. Free copies will be made available as part of the ***Choosing the right pipeline system*** CPD seminar programme.

If you are interested in a free CPD seminar at your office or would like a copy of the new *20 Reasons* booklet, visit the CPSA web site www.concretepipes.co.uk Alternatively, contact CPSA on 0116 253 6161 or e-mail stuart.crisp@britishprecast.org

Note to editors:

The Concrete Pipeline Systems Association (CPSA) is the main trade association representing the interests of the manufacturers of concrete pipeline and manhole systems in the UK. The association is active in research and promotion of the many technical, commercial and environmental benefits of precast concrete pipeline systems. CPSA is a product association of British Precast Concrete Federation.
